YOUNG
POWERSPORTS

Welcome to The National Ram & Ewe Sale

Welcome to the 2025 National Ram Sale! We are thrilled to host this annual national event and are excited to welcome you to this year's events.

Friday will be the day to arrive as you can view one of the finest group of ewes and rams in one location. The expanded ewe offering includes powerful commercial genetics that will improve your range flock along with foundation seedstock ewes. Access to the high quality ewes has been problematic in recent years. That problem is now over as we are offering a select set of registered stud ewes and complimenting this group will be an expanded offering of premium commercial ewes. One of the quickest ways to improve your flock is through the acquisition of high quality ewes and that is exactly what you'll find in the ewe sale. In order to shorten the Saturday ram sale, we have moved the ewe sale to Friday night so make sure you arrive early as the sale starts at 7 PM. Book in plenty of time to visit with the producers and learn about their breeding programs and production data on their sheep.

Highlighting the Friday night events will be the live band - Saddle Strings and some incredible lamb prepared by Nick and Karen Maneotis. Don't miss this grand evening to socialize and network with other producers and consignors along with the ewe sale.

Saturday will provide the annual opportunity to focus on leading edge genetics from the nation's top ram producers. You will find the finest and most complete set of maternal rams assembled anywhere this year from which you can build your flock. The terminal sires will be second to none with a variety of traits available to maximize your profit . Make sure to arrive in time to view the rams and join us for a great lamb dinner prepared by Nick and Karen Maneotis prior to the sale which starts at noon. If you are not able to join us in person at the Wasatch Events Center for the sale, no problem as CCI will once again provide you with the opportunity to purchase rams and ewes from the comfort of your home and we will do our best to get your purchases delivered to you in prime condition. The bidding process is easy and you can rest assured that every sheep in the sale has met a rigid set of health standards. As always, we are here to help you in anyway possible, do not hesitate to call with questions or suggestions.

We look forward to having you join us for the 2025 National Ram Sale!

Gavin Blonquist, Sale Manager435.640.3829

Watch the Sale on CCI.live!

The best, the fastest and most comprehensive marketing & bidding tool!

How to Bid Online...

- **As a buyer**, you do not need an account or to login to watch the sale but you must have a validated account to bid.
 - After you are logged in, you must proceed to the sale page for any and every auction and click **"Get Buyer Number."** Some auctions require a pass-code to obtain a buyer number even after you are approved by CCI.live. Pass codes generally come from the sale manager or ranch for that particular sale.
 - CCI.live will operate with ease on a **cellular device, laptop, desktop or tablet.**
- A **modern or current browser** is important and will make your experience better. You do not need to install the app on cellular devices to watch a sale. CCI.live is a browser-based application meaning it will play on most new browsers, but you can also download the CCI.live app at the Apple App Store or through Google Play.
- **For successful bidding you must have good Internet service!** It is very important to be stationary. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen - it is real time and refresh your browser if you feel like you have some lag.
- **Support line open during all sales. 405-400-9505** - Please contact the ranches for invoices and trucking.

Viewed around the world!

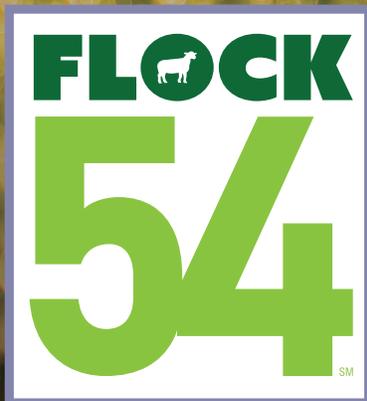

SALE CATALOG, VIDEOS, and LIVE BROADCAST...

DALE AND JUDY
DOBBERPUHL

**Mint Gold
Ranch**

LOT # 151 Banner Butte 732
(6901352023230732)

**Don't miss this opportunity for a true stud ram.
Used at Mint Gold for 2 years.**

An excellent proven ram of 60 offspring and being the third generation of top Suffolk rams of all time. His grandsire is The General (BH 3405). He has 181 offspring in the NSIP system. Talking with several breeders who have used the General, we all agreed that his daughters are perfect ewes. They have perfect udders and milk well. Also, his Carcass + index is in the top 3% of the breed. The Admiral (BB701) is the sire of BB732 and the son of The General and has a Carcass + of 185. When I picked out the BB 732 as my next stud ram, I saw that the twin ewe lamb to BB732 also had an excellent loineye. BB 732 and BB731 had scans of 4.60 in2 and 4.53 in2 and both adjusted to 135 lbs. That is a very impressive set of twins. Also, BB 732 had a rate of gain of 1.77 lbs per day. So, not only are the Grandsire and Sire renowned in the breed, BB732 has proven that he is following in their footsteps. BB732 is from the Suffolk GAP program at 89.5%. Meaning if he is bred to 100% Suffolk ewes, all of their offspring would be 100% registered Suffolk. BB 732 has an excellent temperament and is very easy to handle.

Benz RAMBOUILLET

**Your source for genetic improvement,
regardless of your environment.**

Rams at work throughout the
Midwest plus AZ, CO, ID, MT,
NM, TX, and UT.

Genetics that pay - both in
fleece quality and on the scale.

SOUTHERN UTAH UNIVERSITY

The SUU Farm has a rich history in the sheep industry of Southern Utah since 1913. Located in Cedar City, Utah the farm was started to help local producers learn best practices and improve their sheep herds. Our mission has remained the same while also striving to teach and encourage the next generation of livestock producers. As a farm we are sustained by what we produce. The SUU Farm was one of the earliest adopters of the Targhee breed and value them for their hardy nature, strong maternal traits and great wool. In addition, we raise some of the finest Suffolk rams that add fast growth and toughness to any herd. We focus on lamb hardiness, deep and balanced conformation and keeping great wool. With top Rams from Von Krosigk, Blonquist, Flying V, and Clover Meadows we are always trying to improve and complement our genetics. These range Rams are ready to go to work. All of them are fertility checked, wool tested, and Flock 54 DNA tested.

JEWELL MERINOS

Jewell Merinos are proud to offer rams in the 2025 National Ram Sale.

After years of selective breeding and using Australian semen, we are confident that our breeding program is one of the best in America. All records including birth weight, weaning weight, end weight, and wool data will be available at the sale. After 50 years of raising rams, we will be downsizing. Please stop by our pens at the sale and take a look. We are sure our breeding could have a great impact on your wool clip and replacement ewes. SEE YOU AT THE SALE!

CONSIGNMENT

FLOCK 54 CERTIFIED

PRIVATE TREATIES
CONTACT:
JACK BLATTNER: 208-859-0111
ROSS BLATTNER: 208-505-7282

Terms and Conditions

Terms of sale are cash, check, Venmo, and credit cards accepted on site and online and the buyer assumes the 3.5% credit card fee.

All rams are held at consignor's risk until sold. The buyer assumes all risk as soon as the lot is declared sold. The National Ram Sale assumes no responsibility for rams on sale grounds prior to or after the ram sale or going to or from the ram sale. In the event of any disputes, the Sale Committee has the authority to arbitrate and settle all claims.

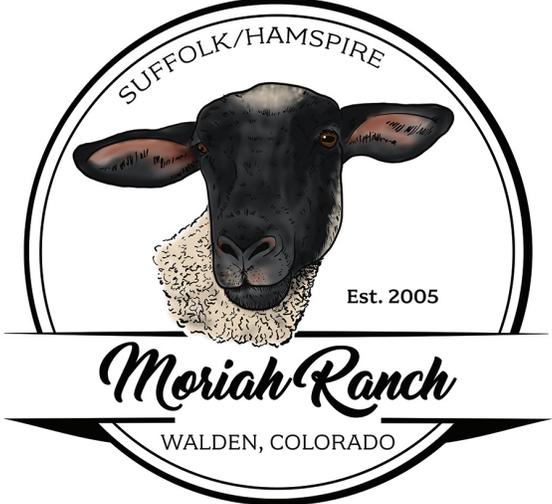

Shipping Contacts

If you are interested in shipping talk to Gavin (435.640.3829) or Tom (801.376.4685). Our goal is to assist in getting sheep purchases delivered to buyers in the most economical way possible. We may not cover delivery on a single ram going to Maine, but we will assist in making arrangements for delivery anywhere and hold rams until such transportation is available. We have delivery contacts for nearly all parts of the country.

For group purchases in the west, we will provide delivery as needed.

The Sale will be held at the Wasatch Events Complex in Heber City, UT

The Heber Valley features sightseeing, museums, spas, art, entertainment, state parks, and additional world-class activities. If you are looking for some of the best of Utah, you have come to the right place. To learn more about Heber visit: gohebervalley.com.

Thank you to our buyers.

The National Ram Sale Rules & Sifting Guidelines

The following rules of The National Ram Sale will be enforced prior to, during, and after the sale in order to uphold the integrity of this sale.

- All rams entered will have an Official Scrapie, Tamper-Resistant ear tag in their ear. All rams are ELISA tested and have the proper documentation showing the ELISA test has been done within 30 days of the first day of the sale. Please note, paperwork will be required before any sheep are unloaded.
- Rams with verified codon testing indicating at least one R will be paint branded with a "R" and a copy of their test will be presented at settlement.
- Stud rams will be paint branded with a special National Ram Sale brand.
- Registration papers will be endorsed and ready for transfer. Buyers will be provided the registration papers at the time of purchase. It is the responsibility of the new owner to make the transfer through the Breed Association.

Each ram will be inspected by the Health Sifting Committee and will use the following criteria:

- Contagious Disease – Rams with any contagious disease are not allowed in the sale. Bringing rams with a contagious condition may be cause for elimination of the entire consignment.
- Proper Age – All Rams must be yearlings and have lamb's teeth or permanent yearling teeth.
- Active infections of the eye: (Keratitis or conjunctivitis) are not permitted.
- Severely "overshot" or "undershot" jaws are not permitted.
- No active boils are allowed in the sale because of the contagious nature of this disease.
- Pizzle Rot – Infections of the sheath with active infection including swelling and large scabs are not allowed.
- Rams should have balanced conformation with strong legs and pasterns.
- Foot Rot – rams with foot rot will be sifted and possibly the entire consignment at the Veterinarians discretion.
- Testicles must be of normal size and consistency and free of palpable swellings which indicate damage or infection. There should be no abnormal swellings in the testicle, epididymitis or spermatic cord and no malformed testicles.
- Scrotal Circumference – Yearling rams with small testicles will be measured and those with a scrotal circumference of less than 32 centimeters will be sifted. Ram lambs with small testicles will also be evaluated and may be sifted based on the discretion of the veterinarian.
- Rectal Prolapse – Rams with rectal prolapse will be sifted.
- Systemic Illness – Rams with signs of systemic disease indicated by depression abnormal respiration (pneumonia), increased body temperature, or severe diarrhea will be sifted.
- Lice and Sheep Ked infestations may result in the ram being sifted.

All rams that are sifted will be eliminated from the sale.

Farm & Fence Solutions

First Hand Experience

Premier has three farms upon which we raise chickens, ducks, geese, sheep, meat goats and horses. And we've worked hard to find staff with roots in agriculture.

It matters because we field test our products to determine their strengths (and weaknesses) before we offer them to you. Traditional farmstores don't do this. Let our folks help you make an educated buying decision.

Educational Catalogs

Our **FREE** unique educational booklets can be mailed to your door. Inside you'll find hundreds of pages of innovative, field-tested poultry and livestock husbandry equipment. Includes more "how-tos", helpful tips and advice than any other source.

FREE shipping on qualified orders.

A flock tells a story about the **legacy** of generations past,
hard work in the present, and **hope** for the future.
Let a Legacy ram make the next chapter one you can build a future on.

Rams marketed exclusively through The National Ram Sale!
A select group of fine wool Legacy ewe lambs will also be offered at
The National Ram Sale.

LEGACY

Tom & Carrie Boyer 801-376-4685

Don't settle for a ram. Build your future with a **LEGACY**

Lot 147

Consignor: Blattner Suffolks Kuna, ID Suffolk Yearling 3
Price: Buyer #

Suffolk Stud Rams

Lot 148

Consignor: Culham & Stevens Webberville, MI Suffolk Yearling 1
Price: Buyer #

Tag #1753		Sire: Culham & Stevens 1634		Dam: Schacherer Suffolks 2207 RR	
Birth Type	Scrapie Genotype	FD Mic	Adj. Ribeye		Maternal
Twin	RR		IN	Ratio	NLB Milk WT.
EMD	Growth		Wool		Carcass + Index
0.3	PWWT	WWT	YFW	YFD	YSL
	9.4	5.0			
					164
Comments: Sired 29 offspring for us last year. Will be taken directly from our breeding pasture in late September. Massive, 3 dimensional ram, with high growth EBVs! Sire sold to Jim Nuemiller of California at last year's National Suffolk sale. We are also using a son out of a daughter of the Schacherer ewe who also damed the top selling Suffolk ram at his year's Center of the Nation NSIP sale!					

Lot 149

Consignor: Blattner Suffolks Kuna, ID Suffolk Yearling 1
Price: Buyer #

Lot 150

Consignor: Reau Suffolks Petersburg, MI Suffolk Yearling 1
Price: Buyer #

Tag # Reau 794		Sire: Reau 751		Dam: Reau 761	
Birth Type	Scrapie Genotype	EMD	PWWT	PFAT	Carcass+ Index
Single	RR	.827	9.6	5.48	175.7
Comments: Top 4% of the breed for the Carcass+ Index and top 15% for Postweaning Weight. He will sire the complete package with growth, leanness, and muscle and he comes in a handsome package! Don't be put off by the fact this ram is a single. His mother was bred as a lamb and lambded at 13 months of age. She has a set of twins this year that are our top two ewe lambs.					

Lot 151

Consignor: Mint Gold Ranch De Pere, WI Suffolk Yearling 1
Price: Buyer #

Tag # BB732		6901352023230732		Sire: The Admiral BB701		Dam: BB21182	
Birth Type	Scrapie Genotype	FD Mic	Adj. Ribeye		Maternal		
TW	RR		IN	Ratio	NLB	Milk WT.	
			4.6		6	0.1	
EMD	Growth		Wool		Range Index		
1.7	PWWT	YWT	YFW	YFD	YSL		
	9.2					Carcass + 172.9	
Comments: An excellent proven ram of 60 offspring and being the third generation of top Suffolk rams of all time. His grandsire is The General (BH 3405). He has 181 offspring in the NSIP system. Talking with several breeders who have used the General, we all agreed that his daughters are perfect ewes. They have perfect udders and milk well. Also his Carcass + index is in the top 3% of the breed. The Admiral (BB701) is the sire of BB732 and the son of The General and has a Carcass + of 185. When I picked out the BB 732 as my next stud ram, I saw that the twin ewe lamb to BB732 also had an excellent loineye. BB 732 and BB731 had scans of 4.60 in2 and 4.53 in2 and both adjusted to 135 lbs. That is a very impressive set of twins. Also BB 732 had a rate of gain of 1.77 lbs per day. So, not only are the Grandsire and sire renowned in the breed , BB732 has proven that he is following in their footsteps. BB732 is from the Suffolk GAP program at 89.5%. Meaning if he is bred to 100% Suffolk ewes, all of their offspring would be 100% registered Suffolk. BB 732 has an excellent temperament and is very easy to handle.							

Lot 152

Consignor: Bunker Hill Farm Coalville, UT Suffolk Lamb 1
Price: Buyer #

Lot 153

Consignor: JMG Suffolks New Prague, MN Suffolk Yearling 1
Price: Buyer #

Tag #		"Stapleton" JMG 2426		Sire: Reau 648		Dam: JMG 2201		6900422024002426	
Birth Type	Scrapie Genotype	B-date	Adj. Ribeye		Maternal				
TW	RRNN	1/26/2024	IN	Ratio	NLB	Milk WT.			
EMD	Growth		Wool		Carcass+ Index				
+0.9	PWWT	PWWT	YFW	YFD	YSL				
	+3.3	+6.2				148.1			
Comments: This stud looks the part and has very respectable EBVs for muscle and growth. I used him last year and have semen frozen on him. Will be A.I.ing a group of ewes to him again this year. Semen rights retained. 1st YR and Reserve Sr Champion ram at the MN State Suffolk Show.									

Lot 154**Consignor:** Culham & Stevens Webberville, MI Suffolk Yearling 1**Price:** **Buyer #**

Tag # 1760		Sire: Culham & Stevens 1634			Dam: Culham & Stevens 1623		
Birth Type	Scrapie Genotype	FD Mic	Adj. Ribeye		Maternal		
Single	RR		IN	Ratio	NLB	Milk WT.	
EMD	Growth		Wool			Carcass + Index	
-0.3	PWWT	WWT	YFW	YFD	YSL	162	
	10.1	5.7					

Comments: Top 5% of Suffolk breed for Weaning Wgt. & top 10% for Postweaning Wgt. Sire sold to Jim Nuemiller of California at last year's National Suffolk sale.

Lot 155**Consignor:** JMG Suffolks New Prague, MN Suffolk Lamb 1**Price:** **Buyer #**

Tag #		Sire: "Dutton" Reau 766			Dam: JMG 2024 6900422025002557		
Birth Type	Scrapie Genotype	B-date	Adj. Ribeye		Maternal		
TW	RRNN	2/27/2025	IN	Ratio	NLB	Milk WT.	
EMD	Growth		Wool			Carcass+ Index	
-0.7	PWWT	WWT	YFW	YFD	YSL	142.2	
	+4.8	+8.6					

Comments: I have liked this lamb since birth. He's built as stout and correct and functional as a Suffolk should be. He's one of my youngest lambs, but he always catches your eye. Out of my best daughter of Culham 1351. Planning to breed a few ewes to him.

Lot 156**Consignor:** Mint Gold Ranch De Pere, WI Suffolk Yearling 1**Price:** **Buyer #**

Tag #		Sire: Reau 766			Dam: JMG 2329		
Birth Type	Scrapie Genotype	FD Mic	Adj. Ribeye		Maternal

EMD	Growth		Wool			Carcass + Index	
-1.5	PWWT	WWT	YFW	YFD	YSL	154	
	12.5	6.2					

Comments: Top 1% of Suffolk NSIP for Postweaning Weight & top 2% for Weaning Weight EBVs! Dam is sired by one of our top selling Suffolk studs in the inaugural National Ram Sale in 2021!

Lot 159

Consignor:	Reau Suffolks	Petersburg, MI	Suffolk	Lamb	1
-------------------	---------------	----------------	---------	------	---

Price:	Buyer #				
---------------	---------	--	--	--	--

Tag # Reau 809	Sire: Reau 792	Dam: Reau 757			
----------------	----------------	---------------	--	--	--

Twin	RR	EMD .99	PWWT 8.0	PFAT - 3.54	Carcass+ Index 163.9
------	----	---------	----------	-------------	----------------------

Comments: This ram combines the best of both worlds with great terminal and maternal genetics in one package. He is in the top 15% of the breed for the Carcass+ Index and top 10% for Number of Lambs Born and Number of Lambs Weaned. He will be an excellent sire of replacement ewe lambs. He goes back on the dam side to Reau 594 the top selling ram in the 2017 Center of the Nation Sale that sired our best producing ewes. It is rare to find a ram with this combination of genetics.

NSIP GLOSSARY

- (EBVs): Estimated Breeding Values: EBVs are science-based, industry-tested measurements of heritable traits that can be tracked and measured. EBVs are proven to improve on-farm productivity and enhance breeding decisions.
- Birth Weight (BWT) estimates direct genetic effect on weight at birth. Positive selection on BWT EBVs is anticipated to increase birth weight and have correlated positive effects on early lamb survival especially in twins and triplets.
- Weaning Weight (WWT) provides an estimate of preweaning growth potential and will receive positive selection pressure in most flocks due to its impact on pounds of lamb weaned per ewe exposed and overall profitability.
- Post-Weaning Weight (PWWT) reflects the genetic potential for lambs to grow after weaning based on both pre and post weaning data. Selecting for PWWT will favor individuals with rapid growth to market weight.
- Post-Weaning Eye Muscle Depth (PEMD) estimates the genetic potential for muscling. Positive selection pressure will increase carcass cutability and are estimated based on Ultrasound measurements.
- Post-Weaning Fat (PFAT) expresses the genetic potential for carcass fatness over the loin at the 12th and 13th ribs. Used in conjunction with PEMD, carcass composition and quality can be improved.
- Number of Lambs Born (NLB) expresses the genetic potential for prolificacy and is reported in a percentage (%). If a ram has 26% NLB EBV, he should sire daughters that will have 26% more lambs than the average or if he sires 100 daughters, they will drop 26 more lambs compared to average.
- Number of Lambs Weaned (NLW) evaluates combined effects of prolificacy and lamb survival and is also expressed as a percentage. If a ram with NLW EBV of 12% sires 100 daughters, those daughters will wean 12 additional lambs compared to average.
- The Yearling (YWT) EBV (kg) estimates growth potential to 12 months of age. Animals with high yearling weight EBV exhibit sustained post weaning growth, but ewe lambs with high yearling weight EBV are anticipated to have heavier adult body weights and greater maintenance requirements. [Western range Breeds]
- The Fleece weight (GFW) EBV (%) is based on greasy fleece weights and estimates the animal's genetic potential for wool production. Fleece weight are stored and analyzed in kilograms. However, because of the limited range and resulting EBV and potentially large effects of environment, management, and sex on yearling fleece weight, the GFW EBV is recorded as a percentage of the mean fleece weight. A GFW EBV of +10 thus indicates that the animal is expected to produce fleeces that are 10% heavier than average. [Western range breeds; maternal wool breeds]
- The Fiber Diameter Coefficient a variation (FDCV) EBV (%) estimates genetic merit for fleece uniformity, expressed as the coefficient a variation (CV) among individual wool fibers in a fleece sample. Animals with more uniform fleeces (lower CV) are desired, so negative EBV are favored for this trait. [Western Range Breeds; Maternal Wool Breeds]
- The Fiber Curvature (CURV) EBV (degree) predicts genetic differences in crimp frequency. This EBV is based on an OFDA optical measurement of fiber curvature, which is measured in degrees and is a very accurate predictor of crimp. Higher values for curvature indicate broader or bolder crimp. Positive EBV therefore indicate more crimp and, depending on the end-product (Knitwear or worsted fabric), may or may not be desirable. [Western Range Breed]
- The US Western Range Index (%) was developed by NSIP to improve profitability in Targhee range flocks and is generally applicable to extensively managed Western Range Flocks with positive emphasis on both lamb and wool production. EBV for the Western Range Index are estimated from Post Weaning Weight (PWWT), Maternal Weaning Weight (MWWT), Yearling Weight (YWT), Yearling Fleece Weight (YGFW), Yearling Fiber Diameter (YFD), and Number of Lambs Born (NLB) EBV
